

## Exhibiting at the 2015 NDIS New World Conference: Disability in the 21st Century

The exhibition and trade show will take the form of an engaged and accessible community, an 'open world' as it were, where choice and control are embedded as part of living an 'ordinary life'.

The NDIS New World conference 2015 exhibition and trade show will feature the most up to date technology, equipment and services available. The conference program has been designed to maximise the opportunity for delegates to visit the exhibition. With refreshment breaks, lunch, internet facilities and lounge areas being held in the exhibition area. The exhibition is set to be the major networking arena for delegates, speakers and exhibitors.

The NDIS New World Conference 2015 is facilitated by the National Disability Insurance Agency (NDIA). Participation in the NDIS New World Conference 2015 gives sponsors the opportunity to showcase their brands during the NDIS New World Conference 2015 but does not constitute a commitment by the NDIA to use or promote sponsors and their brands. The NDIA reserves the right to approve all sponsorship.
